

ARIS Express is coming...

Fonte: Aris Community – junho 2009

But what is ARIS Express? Well, with ARIS Express, IDS Scheer is offering its customers the world's first free BPM software. Non-expert employees in particular can use the solution as a way of getting started with Business Process Management. The simple, innovative modeling interface enables instant results. Thanks to the methods and industry standards supported by ARIS Express, decisions can be made on the basis of reliable data. This product will also appeal to universities and vocational schools, as well as occasional users looking for an introduction to BPM.

- Intuitive user interface – modeling teams can work productively from the start
- Models for organizational structures, processes, application systems, data, BPMN, and more
- Valuable reference content to complement the free, proven methods
- All results can be reused in professional ARIS BPM tools
- Self-study with free training materials in ARIS Community
- ARIS Express is offered as a download and can also be used without an Internet connection
